

INFRARED SAUNA CONTROL

SAWO's infrared control is extremely convenient to use. You can choose from a separate interface + power controller or have built-in control that has both in one package. Control enables adjusting room temperature, session time, lights, and exhaust fan.

- Fan Control
- Light Switch
- Simple and easy to use
- Session time up to 60 mins
- Temperature setting 35–70 °C

User Interface

INFRARED BACKREST

SAWO's infrared backrest is compact to take along everywhere! It generates far-infrared heat, which penetrates deeper into your body to soothe muscles, burn fats, detoxify, and relax the body. When not turned on, it enhances the sitting posture and keeps your back in better shape. Also, the headrest has an adjustable height.

- On/Off Switch
- AC Power Plug
- Strong Nylon Strap
- Adjustable Headrest
- Aspen or Cedar Wood

Recommended session time is 15–25 mins,
3-4 times a week for best health benefits.

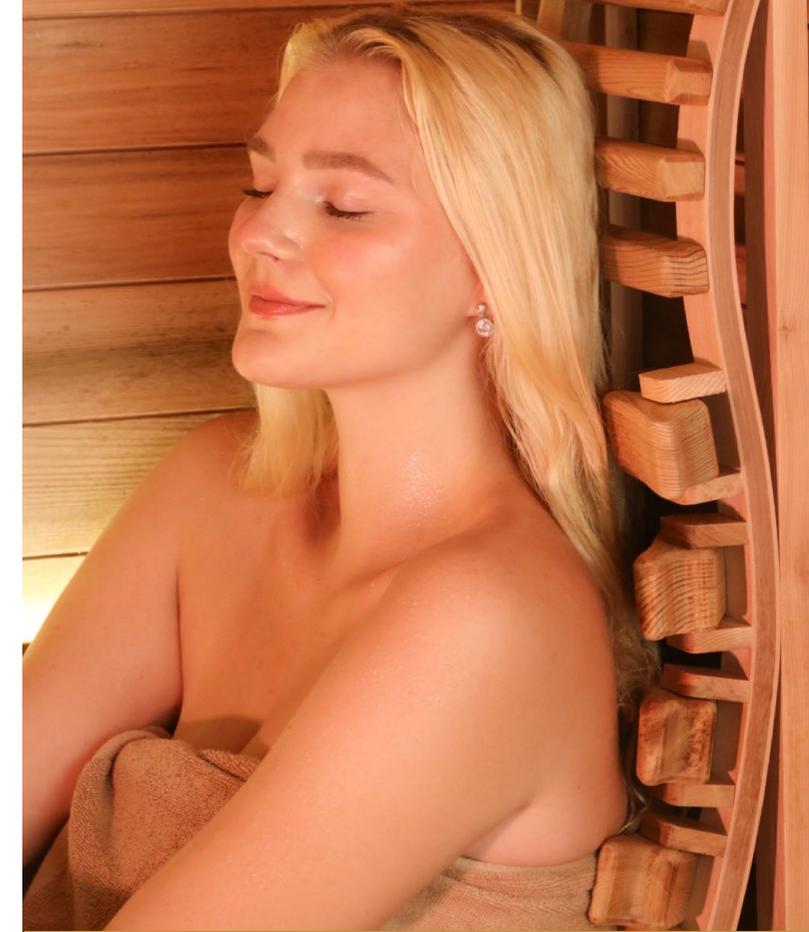

If you're pregnant or have a medical condition,
please consult your doctor before using the
sauna.

INFRARED SAUNA ROOM

SAWO's standard infrared sauna rooms come in two sizes, either for a single person or for two people. The far-infrared panels do not heat the room as much as a traditional sauna does, so the majority of the heat produced is heating the body.

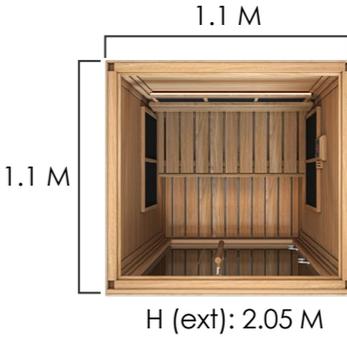

- Session time: 1–60 mins
- Packing: Wooden crate
- Adjustable base support
- Modern LED lights (12W)
- Pre-installed exhaust fan (18W)
- 230V 1N~ plug-and-play installation
- Control: temperature, session time, lights, fan
- Fiber-coated far infrared panels (170W / panel)
- 2 different sizes: 1-person sauna (1200 W) or 2-person sauna (1400 W)

Cedar (D)

1-Person Infrared Sauna
Power: 1200 W
Item Code: 0908-IR CEDAR

2-Person Infrared Sauna
Power: 1400 W
Item Code: 1111-IR CEDAR

INFRARED PRODUCTS

The infrared sauna experience differs from the traditional Finnish sauna experience, but both have similar health effects. The infrared improves blood circulation and muscle recovery, cleans and softens the skin, lowers stress, detoxifies the body, aids in weight loss, and strengthens the immune system.

The air in an infrared sauna is lower than in traditional saunas, up to 55–70°C, because the IR panels used as a heating method do not heat the air as much as they heat the body. SAWO's infrared products use far-infrared, which helps warm the muscles and causes more sweating even at low temperatures. In an infrared sauna, heat-up time only takes 10–20 minutes, no floor drains are needed, easy plug-in installation, and bathers can sit for up to 30–45 minutes.

Feel the gentle IR wave therapy of the infrared sauna!
